Downlighting Systems

OneFrame System

Recessed LED Downlighting

The OneFrame® System represents the culmination of decades of engineering experience. We've made every element of this system to work seamlessly with the others, making it truly modular. What's more, it allows you to adapt to changing needs without renovations, putting you in complete control of your light.

SquareFrame System

Recessed LED Downlighting

The SquareFrame™ is a breakthrough addition to the DMF downlighting family. It takes the OneFrame's exceptional flexibility, simplicity, and performance and reimagines it in a square format that delivers perfect alignment.

Downlighting Systems

DCD Series

Higher-Lumen LED Downlighting System

The DCD Series is a higher-lumen, interoperable downlighting solution that radically simplifies configuration in the field. With just one housing type, you can change beam angles, increase light output, service the driver, and even switch to an adjustable. All without tools.

DRD5S

Surface Mount LED Downlighting

The DRD5S redefines what's possible for a surface mount downlight. Packed with technical breakthroughs, the ultra-thin DRD5S matches the elegance of a high-end recessed downlight. In addition, it's more versatile because it can fit more applications, even those with limited plenum space.

LED Modules

Adjustables

DRD2

General LED Downlight

The DRD2 is a compact LED module with an integrated driver that delivers the optimal balance of form and function. It provides outstanding illumination and color consistency while being simple to specify, install, and maintain. The DRD2 truly exemplifies the standard for light quality and value.

DRD3

Adjustable LED Downlight

The adjustable DRD3 makes precision directional aim easy and tool-free. Its 40° of tilt and 360° of rotation are perfect for specialized accent designs. The DRD3 provides seamless compatibility with the DMF Classic and industry standard frames.

DRD2X

Apex Series LED Downlight

An evolution of the DRD2, the DRD2X delivers a precision-targeted beam of high-performance, low-glare illumination precisely where you need it. Merging advanced reflective optics with robust LED technologies and an integrated driver, the DRD2X delivers strong center beam candlepower through 20°, 30°, or 40° beam options. It's a compact light that produces high-end, architectural-grade illumination without sacrificing simplicity.

DRD4

Adjustable LED Downlight

The adjustable DRD4 brings ultimate flexibility to the OneFrame System. With an integrated driver, 20°, 30°, and 40° beam options, and field changeable accessories, the DRD4 delivers tool-free aimed and lockable light beams for today's lighting designs. Complementary beveled and pinhole trims enhance aesthetics and quiet ceiling designs.

Surface Mount

DRD5S

Surface Mount LED Downlight

The DRD5S's minimal design is available in multiple form factors, with the 4" Round and Square matching the appearance of high-end recessed lights. These models also include optional Integrated EM Test Switch and Non-Conductive Dead Front variants.

DRD5S

18" Linear Surface Mount

A fresh take on the DRD5S, this linear area light delivers 1500 lumens of 90+ CRI light in a unique form factor. Like our other downlights in this series, the linear version features a proprietary integrated driver and small footprint, making it a great choice for new construction or retrofit applications.

DRD5S

8" Round Surface Mount

This minimalist downlight takes everything that makes the original DRD5S exceptional, and expands on it. This area light can fill a room with inviting, accurate illumination. In addition, its SurfaceFrame compatibility simplifies installation and makes it totally interoperable with the rest of the DRD5S family.

2" Recessed

LD2

2" Recessed LED Downlight

With three different beam angles and a wall wash feature, the LD2 provides a host of architectural lighting options from its 2" aperture. And with a compact design that allows for easier installation and maintenance, the LD2 installs in just three simple steps.

Higher-Lumen

DCD3
Higher-Lumen LED Module

The DCD3 delivers up to 3000 lm of superior lighting at 90+ CRI, perfect for higher ceiling applications. Its tool-free, field-changeable lenses and trims offer endless lighting customization, allowing you to easily change how your spaces feel and perform with minimal labor. Whether you're lighting a concert hall or a corridor, the DCD3 gives you impressive versatility that's incredibly simple to use.

DCD4
Adjustable Higher-Lumen LED Module

The DCD4 puts powerful lighting exactly where you want it with 360° of aimable rotation and up to 40° of tilt. Simply unlock a lever and knob to allow precise, infinite adjustments and then lock it back into place. The process is quick, simple, and 100% tool-free. And with field-changeable beam angles and lumen outputs, you can further customize your lighting, even after installation.

“Everything is so plug & play, all you need is a ladder to get up to the light.”

Housings

- Insulation Contact (IC) Rated
- STC/IIC Sound Rated
- ASTM E283 Certified Air Tight
- Emergency Lighting
- Concrete Tight
- Code compliant for use in appropriate fire-rated assemblies for up to 2-hours

OneFrame

The OneFrame® is the first of its kind – a revolutionary LED housing created with multifamily construction in mind. Thanks to its unique low profile and small aperture design, it provides you with high-quality, cost-effective recessed LED lighting that requires less than 4" of ceiling space. Plus, the OneFrame simplifies installation and maintenance and blends into any aesthetic. It's performance and value all in one compact package.

- Insulation Contact (IC) Rated
- STC/IIC Sound Rated
- ASTM E283 Certified Air Tight
- Emergency Lighting
- Code compliant for use in appropriate fire-rated assemblies for up to 2-hours

SquareFrame

The SquareFrame™ offers a suite of features that work together seamlessly to give you a flawless fit more quickly and with less hassle. 90 degrees of rotation, lateral translation and fine-tuning adjustments combine for perfectly straight and perfectly aligned installations.

- Insulation Contact (IC) Rated
- STC/IIC Sound Rated
- ASTM E283 Certified Air Tight
- Emergency Lighting
- Code compliant for use in appropriate fire-rated assemblies for up to 2-hours

SurfaceFrame

Based on the award-winning OneFrame, the SurfaceFrame™ is an ultra low-profile housing designed for DMF's surface mount luminaires. Its innovative design requires minimal installation space while preserving key ratings and performance features.

Housings

 Emergency Lighting

DCD Frame

The foundation for the DCD Series, the DCD Frame offers flexibility at every stage. After installation, you can decide to install general downlights or adjustables and even switch to accents, wall washes, or change beam angles.

Classic Frames

All of our DRDH and DCDH housings are UL Listed approved for use with DMF's advanced LED modules. With new construction or remodel options featuring 4", 5", 6", or 8" apertures, you can choose the housing that best fits your application.

 Insulation Contact (IC) Rated

 ASTM E283 Certified Air Tight

 Emergency Lighting

Trims

A perfect match

Made with die-cast aluminum, our trims are completely customizable by color, finish, shape, and function. They can blend in, or stand out, depending on your vision. And just like the rest of the DMF system, they're exceptionally easy to install or change.

Square

A modern look that's expertly die cast with sharp edges and precise corners.

Round on Square

Unobstructed illumination from a square profile.

Decorative

Finely crafted acrylic that delivers a subtle, radiant glow. Options include an open or closed bottom, and frosted or clear finish.

Flangeless

Low-profile mud flange installs simply and seamlessly. Available for Round, Square, Hyperbolic, Pinhole, and Wall Wash trims.

Diffused Finishes

Diffused finishing options reduce glare even further for soft, comfortable lighting.

Wall Wash

Perfect for delivering broad, consistent light across a wall surface with an unobtrusive design that stays above the ceiling plane.

Emergency

Provides emergency functionality with an integrated test switch. Available in round and square.

Custom Colors

Make your project completely your own with fully customizable color options for all trims.

Pinhole

Accentuates light distribution for a narrow, spotlight effect. Choose between straight or beveled edges.

Hyperbolic

A unique reflector that provides completely smooth, uniform light and blends into ceilings.

Cylinders

DCC

LED Cylinder

By combining a suite of customizable features with our highest performing LED modules yet, the DCC provides brilliant illumination and beautiful design versatile enough for whatever your project needs. The DCC centers around a modular LED lighting system, so it's easy to specify, install and maintain.

Standard Trim: Classic design complements the Cylinder with a simple, uniform aesthetic.

Hyperbolic Trim: Edgeless trim provides completely smooth, uniform light.

Snoot: Channels light source and decreases visual cutoff angle to increase focus and mitigate glare.

Decorative Trim: Clear outside, frosted inside decorative piece refracts light for a diffused effect.

Low-Profile Decorative Trim: Finely crafted acrylic subtly fills your space with beautiful ambient light.

Uplight: Enables light output at elevated levels, while providing glare-free ambiance and the ability to highlight architectural elements.

Round & Flat Shades: Re-imagined for more diverse environments while creating a more focused and comfortable general light.

Interchangeable Trims & Shades

Shades, trims, specialty options, even the light engine can all be swapped out in the field, giving you control during and after the installation.

Modular makes more possible

Our downlighting systems allow you to create diverse types of lighting using a small set of elements. By swapping out our modular components, you can radically alter your light without replacing the junction box, drastically reducing costs and labor. That means the people who inhabit your space get exactly the right light, even if their needs change.

DMF Product Configuration Guide

DRD2

General Recessed LED Downlight

- Compact design with integrated driver
- Delivers up to 1000 lumens of exceptional light
- 93+ CRI and 75 R9 value rated LED for true color every time
- Industry-leading value and efficiency

Comfort without compromise

DMF's Warm Dim technology transforms how your spaces look and feel without sacrificing simplicity or performance. Warm Dim transitions from a bright and inviting 3000K to a warm and intimate 1800K, maintaining a consistent 93+ CRI and Energy Star rating throughout.

DRD2X

Apex Series Recessed LED Downlight

- Top-tier beam-controlled illumination, delivered with industry-leading value
- 90+ CRI rated LED produces up to 750 lumens and 4000cd of focused light with 20°, 30°, and 40° available optics
- Compact design with integrated driver
- Twist & Lock feature allows for easy, tool-free installation and trim modification

Adjustable Recessed LED Downlight

- Precise, 360° adjustable downlight with integrated driver
- Tool-free, field-changeable optics and accessories
- Up to 45° tilt without disrupting the ceiling plane
- 5° incremental detents enable tactile feedback and precise control
- Best-in-class efficiency

Application New Construction		Compatible Housings OneFrame, SquareFrame	
Delivered Lumens 750 lm (9.7W), 1000 lm (12.0W)		Input Voltage 120/277V	Center Beam Candlepower 6000cd (Spot 800lm)

“Everything is so modular and plug & play, you don't even need a screwdriver. All you need is a ladder to get up to the light.”

Brilliance engineered

Our in-house R&D lab is filled with brilliant engineers always at work improving our products and inventing new ones. They understand that light is more than illumination, it's what makes a space beautiful, useful, and ultimately, livable.

DMF engineers create products that deliver exceptional performance and aesthetics, while also saving you time and money year after year. That same ethos animates every part of our company, from our tireless customer service to our fast, intelligent distribution.

If you want lighting that's not just built better, but built smarter, DMF is the lighting partner for you.
