

DCC

LED Cylinder

The DCC has reached a level of flexibility and customization unmatched in the industry.

Introducing the next evolution of the DCC Cylinder series. By combining a suite of customizable features with our highest performing LED modules yet, the DCC provides brilliant illumination and beautiful design versatile enough for whatever your project's needs.

The DCC centers around a modular LED lighting system, so it's easy to install and effortless to maintain. With brand new trim and shade options, an uplighting feature, and mounting for indoor, outdoor, and wet locations, the DCC can be configured to fit a vast range of applications.

Over a million configurations

The DCC Cylinder is our most versatile product. Choose from a wide range of options to customize mounting, beam angles, lumen outputs, finishes, trim and shade options, uplighting, and more.

Mix and match to create the light you need for the space you want.

“We focus on design a lot when developing our products. The fixture looks great when it’s off but when it’s on, the light output is beautiful.”

Plug & Play

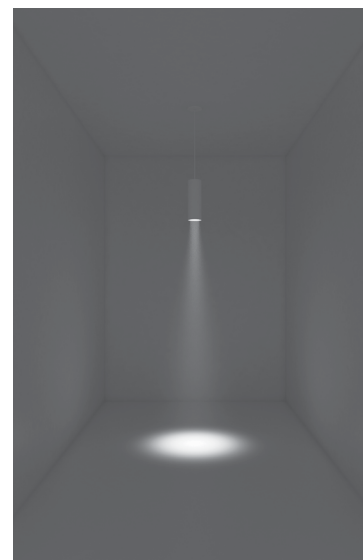

LED modules with integrated drivers can be swapped out without rewiring or an electrician.

Brilliance. Customized.

At the core of the DCC Cylinder is DMF's advanced LED modules, which brilliantly illuminate any space with superior color rendition and multiple lumen and beam options. An integrated driver ensures quick installation, while tool-free features require minimal maintenance.

Inside the elegant, cylindrical housing is its core: DMF's LED module system.

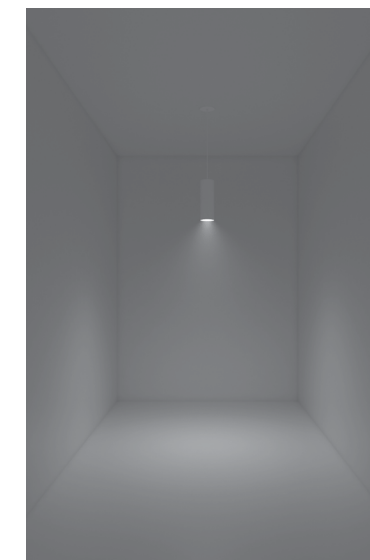

The DCC cylinder can be configured with a full range of lighting options to match your most challenging specification.

SPOT (25°)

NARROW FLOOD (35°)

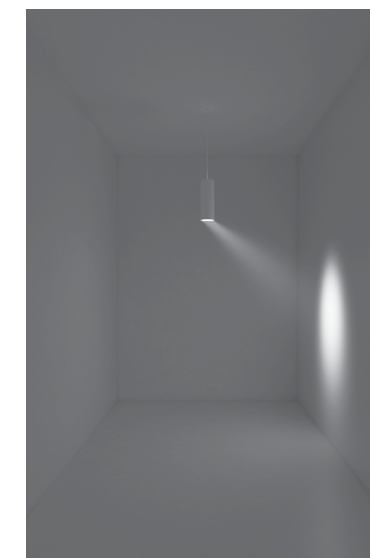

FLOOD (50°)

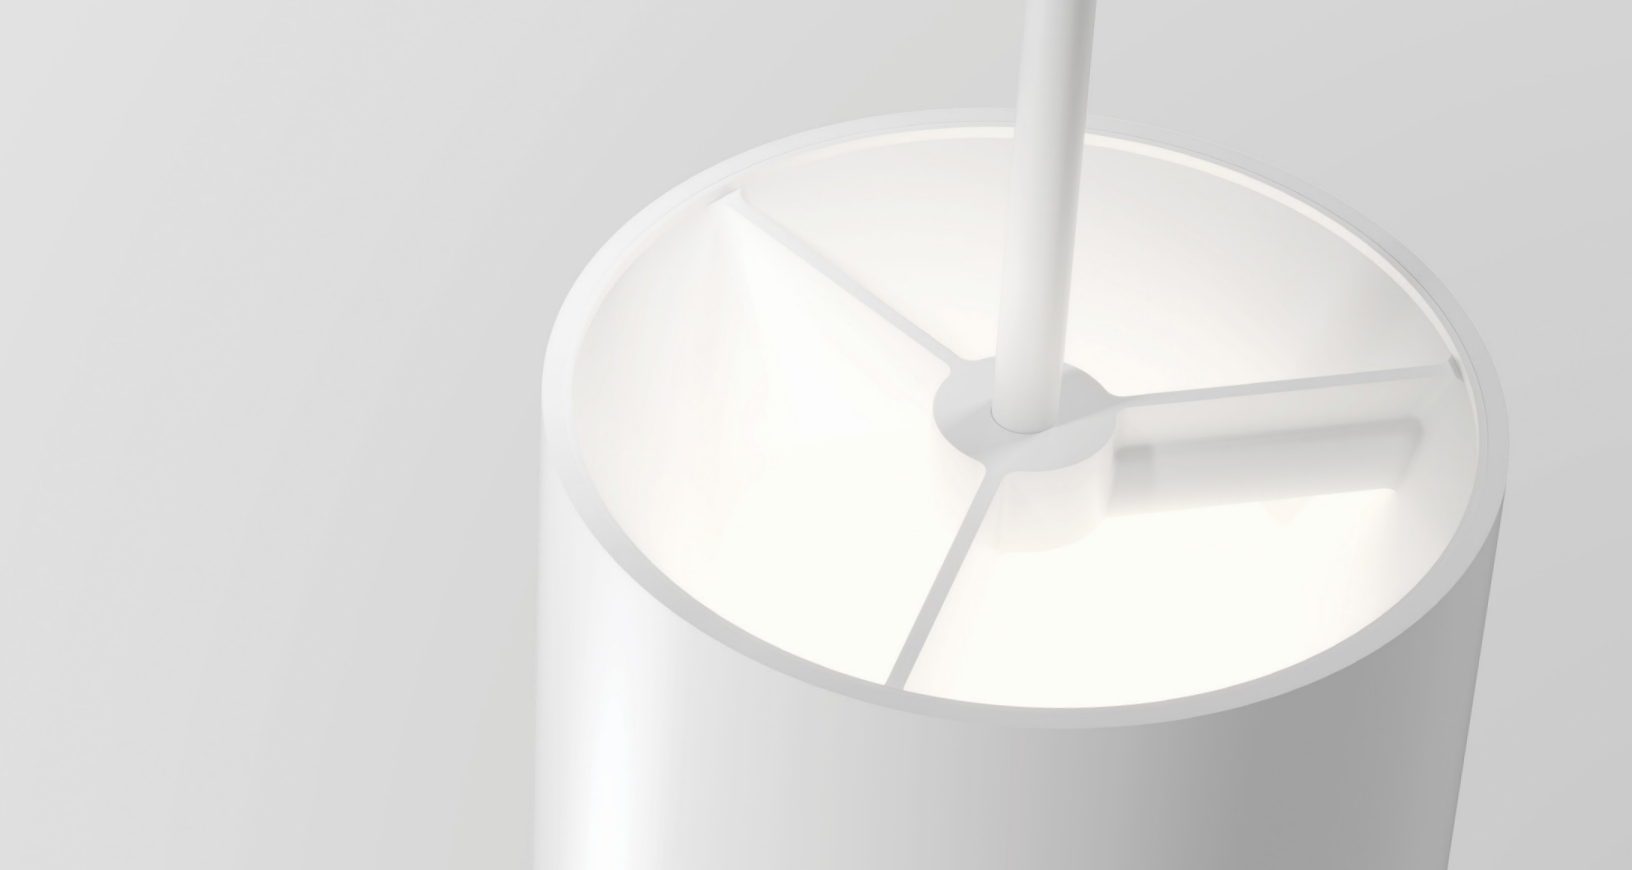

GENERAL AMBIENT (65°)

UP/DOWNLIGHT

ADJUSTABLE

Uplight

With the addition of a shadow-less pendant uplight, the DCC Cylinder is even more customizable. The uplight enables light output at elevated levels, while providing glare-free ambiance and the ability to highlight architectural elements.

Hyperbolic Trim

Edgeless trim provides completely smooth, uniform light.

**Twist & lock

allow easy
modifications
on-site.**

Interchangeable accessories = even more applications

Shades, trims, specialty options, even the light engine can all be swapped out in the field, giving you control during and after the installation.

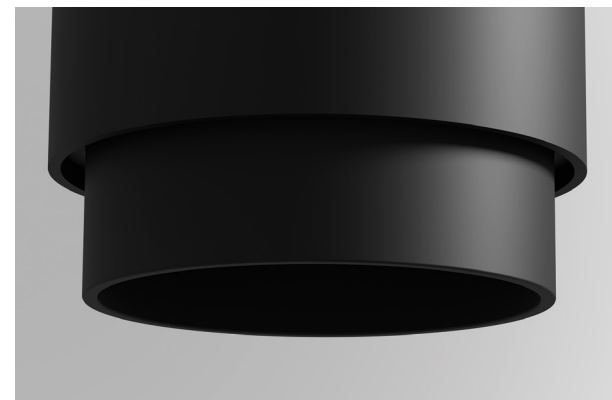

Round Shade

Flat Shade

With new round and flat shade options, this classic cylinder can be re-imagined for more diverse environments while creating a more focused and comfortable general light.

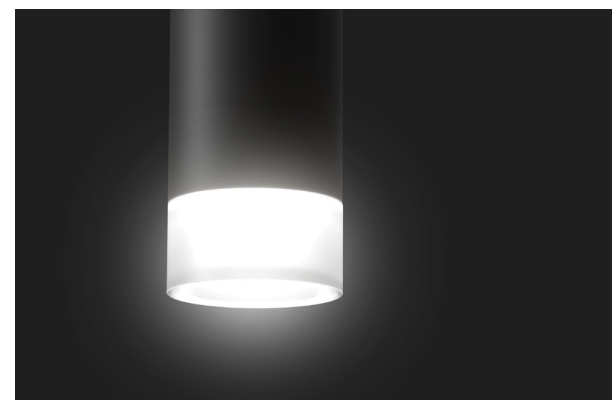

Snoot

Channels light source and decreases visual cutoff angle to increase focus and mitigate glare.

Low-Profile Decorative Trim

Finely crafted acrylic subtly fills your space with a beautiful ambient light.

Decorative Trim

The DCC series combines minimalist design, advanced LED technology, and countless options to bring the highest quality and flexibility to your project.

DMF Benefits:

- Quality & reliability
- Ease of specification
- Ease of field configuration
- Ease of install
- Ships configured in 5 business days (Quantity of 250 or less)
- Product support
